

SOROUSH BAYANATI

Frontend Developer

Vancouver, BC, Canada • sorosh.bayanati@gmail.com [linkedin.com/in/sorosh-bayanati-3546723a5](https://www.linkedin.com/in/sorosh-bayanati-3546723a5) • github.com/soroshby • soroshby.github.io/portfolio

PROFESSIONAL SUMMARY

Frontend Developer with 3+ years of professional experience building responsive web applications using React, TypeScript, and modern JavaScript frameworks. Proven ability to develop intuitive user interfaces, integrate REST APIs, and implement efficient state management solutions. Experienced in collaborative development workflows and passionate about creating clean, accessible, and user-friendly interfaces.

KEY TECHNICAL SKILLS

Frontend Technologies

- React 18/19 (Hooks, Context API, custom hooks, component composition)
- TypeScript, JavaScript ES6+
- TanStack Router, TanStack Query (data fetching, caching, state management)
- HTML5, CSS3, Responsive Design
- Tailwind CSS, Material UI
- Vite, Webpack (build tools)

Development Practices

- REST API Integration • State Management (Context, Hooks, TanStack Query)
- Git/GitHub (version control, collaborative workflows)
- Component-based Architecture • Responsive & Accessible UI Design

Additional: Angular, RxJS, Node.js, Express, Firebase

PROFESSIONAL EXPERIENCE

Frontend Developer

Ultimate System | Vancouver, BC | August 2022 – Present

- Develop and maintain web application features using Angular, TypeScript, and RxJS for enterprise-level system
- Build reusable UI components with Angular Material and Kendo UI, improving development efficiency
- Implement responsive interfaces ensuring optimal user experience across all devices
- Integrate RESTful APIs for seamless data flow between frontend and backend services
- Collaborate with teams using Git workflows, participating in code reviews and maintaining code quality

Frontend Developer

MD Swiss Pharma GmbH | Remote | June 2021 – July 2022

- Developed custom React components for patient management dashboard using TypeScript
- Implemented full REST API integration for data operations between frontend and backend
- Built responsive UI layouts optimized for healthcare workflows
- Created reusable component library improving development speed and design consistency

PROJECTS

WeatherNow - Weather Dashboard Application

React, TanStack Router, TanStack Query, OpenWeather API | February 2026

Live: soroshby.github.io/WeatherApp

- Built modern weather application with multi-page routing and lazy-loaded components
- Integrated OpenWeather API with TanStack Query for efficient data fetching and caching

- Implemented real-time weather features: current conditions, 24-hour and 5-day forecasts
- Created custom hooks following React best practices for reusable API logic

Modern Developer Portfolio

React 18, Vite, Tailwind CSS, Framer Motion | January 2026

Live: soroushby.github.io/portfolio

- Designed and developed professional portfolio with component-based architecture
- Implemented responsive design with Tailwind CSS ensuring mobile-first approach
- Added smooth animations using Framer Motion for enhanced user experience

ADDITIONAL EXPERIENCE

YouTube Content Creator & Community Manager

Soccer Podcast Network | 2020 – Present

- Built and scaled multi-channel network to 40,000+ YouTube subscribers and 190,000+ Instagram followers
- Developed understanding of user engagement, analytics, and UX principles

EDUCATION

Diploma in New Media Design & Web Development

British Columbia Institute of Technology (BCIT) | Burnaby, BC | Graduated 2026

- Relevant Coursework: Web Scripting, Frontend Development, UI/UX Design, JavaScript, React
